

New Book: How *The REAL Welcoming Church* is unique

- This book is unique in its focus on challenging and guiding each person in a church to examine his or her own life in light of God's word. Churches are composed of individuals with personal sins, struggles, addictions and issues that can significantly cripple the ability of the church to hear from, focus on, receive and fulfill its vision from God. Consequently, the book gently guides each reader into God's solutions for their lives and therefore, for that of the church. As each member develops and begins to express God's holy, loving and welcoming heart, so the church culture changes to be more Christ-like, drawing in those who deeply need Jesus, our Savior!
- The book is unique in its interactive style that motivates the reader to stop, reflect on the principles and steps, and act in partnership with others so to produce an irresistible welcoming atmosphere and culture that powerfully communicates the welcoming heart of Jesus.
- This book enables the reader to develop a welcoming heart, and attitude that arises out of daily obedience and an intimate walk with God. This is not a program or formula to be applied but a dynamic life to be lived in relationship with others!
